

Motion is life

Withings Activité is a game changer: A stunning Swiss-made watch that combines time and activity tracking.

High-end Swiss dials.

Designed in Locle, within the Swiss watchmakers valley, the dials come in two colors: A sleek black pattern with an orange accent and a sophisticated white face with a blue accent. Both dials feature a pair of dazzling hands.

An impenetrable case

Protected by a scratch-proof domed sapphire glass, the 5 ATM water-resistant case is made from a stainless 316L alloy steel resilient to time and corrosion.

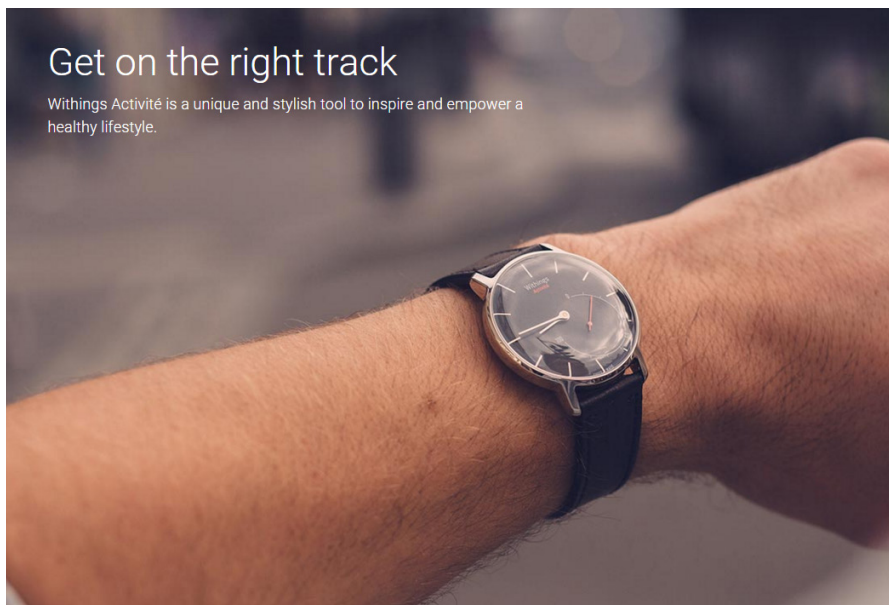

Fine calf leather strap.

Each meticulously stitched strap is made of soft grain high quality Barenia leather from Haas Tanneries, the supplier of the finest French Haute Couture houses. Choice of black or tawny brown.

Get on the right track

Withings Activité is a unique and stylish tool to inspire and empower a healthy lifestyle.

No need to charge it

No cable, no dock.

Activité works on a CR2025 button cell providing a battery life that exceeds 8 months. To recharge the battery, simply change the button cell.
