

SAMSUNG

Advanced Fitness Tracking

Tracking your **step count, calories burned, floors climbed, sleep quality** and more makes your goals easier to achieve. Plus, the **Gear Fit2** allows you to **monitor your heart rate** every second of your workout.¹

Standalone GPS

Leave your phone behind and **map your run** right from your **Gear Fit2**. Easily **check your progress** with daily on-screen activity summaries.

Standalone Music Player

Store music on the **Gear Fit2** and enjoy your favourite workout playlists without your smartphone. Connect **Gear Fit2** to a **Bluetooth speaker or headphones** (sold separately) and off you go.

Auto and Multi Sport Tracking

Forget about the start button. The **Gear Fit2** recognizes your activity after 10 minutes whether you're **sleeping, running, cycling, working out on the elliptical** or a variety of other activities. Select the appropriate activity mode and it begins tracking **strength training, yoga, pilates and more**.

Smart Notifications

You'll never miss a beat because everything gets delivered right to your **Gear Fit2**. Receive notifications for your favorite apps and even **respond to calls, texts and more**—all **without reaching** for your phone.

Designed to Help You Get Fit Your Way

The **curved 1.5" full-color Super AMOLED** display lets you **easily read** real-time activity reports in the **sun or shade**. The water-resistant² **Gear Fit2** is up for anything—no matter how **sweaty or rainy** your workout gets.

¹Caution! The information gathered from this device or its related software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease. The accuracy of the information and data provided by this device and its related software, including heart rate readings, may be affected by factors such as environmental conditions, skin condition, specific activity performed while wearing the device, settings of the device, user configuration/user provided information, placement of the sensor on the wrist, and other end-user interactions. Please refer to the user manual for more information on proper wear and use.

²IP68 rating means it's water-resistant in up to 5 feet of water for up to 30 minutes; rinse residue/dry after wet. See user manual.

Gear Fit2

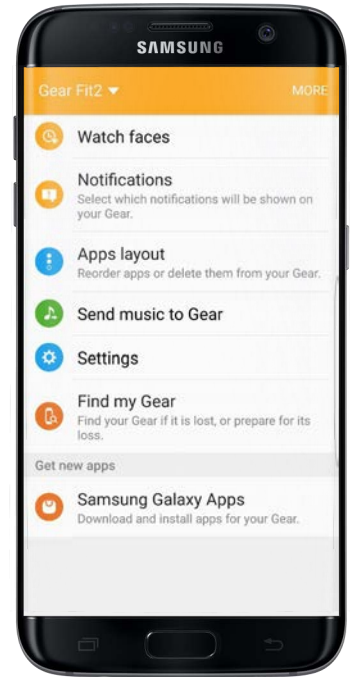

CHANGE / STYLISE WATCH FACE

Quickly change the watch face to suit your mood, outfit or amount of information you want displayed.

1. Long press the Gear Fit2 home screen.
 2. Swipe left and right to view the various watch face options.
 3. Tap on the watch face that you'd like to use.
- or-
4. Select "Stylise" to modify a watch face to your taste.

You can also download and control the watch face from the Gear Manager. Select "Watch faces" from the menu to access more.

STANDALONE MODE

Start tracking your fitness goals right out of the box without connecting Gear Fit2 to a smartphone.

1. Remove the Gear Fit2 from the box and turn it on.
2. Scroll to the bottom of the pairing screen and tap "Use gear without phone connection".
3. Set the language and agree to the EULA.
4. Create a PIN that will be used for backing up and restoring data.
5. Set the date / time and click the next arrow. Gear Fit2 is now ready to track your activity.

You can pair Gear Fit2 to an android device at a later date and all the activity that has been tracked can then be backed up to S Health app.

START EXERCISE

Gear Fit2 will auto detect your workout after 10 minutes of activity, but if you want to keep track of your progress from the start you can initiate your workout manually.

1. Swipe to the exercise widget. It will automatically display your last work out type and duration. If your doing the same workout you can just tap "start".

If you are doing a different workout, tap the display and select your activity type and target, and select if you want the location data to be collected and how often you'd like to be "coached". ("Guide at Intervals" setting.)

TRANSFER MUSIC

Enjoy music while you work out without having to carry your smartphone. Simply pair the Gear Fit2 to Bluetooth headphones or speakers and get in your groove.

1. From the Gear Manager app, select "Send Music to Gear".
2. Select the albums, artists or playlists that you want to send to your Gear Fit2.
3. Tap "Done" and the music will begin transferring.
4. Repeat these steps until the Gear Fit2 has all the tracks that you want to have with you on the go.

You can also choose to "Auto Sync" your favourite, most played, recently added or other playlist, so you'll always have the latest music with you on the go.
