

Wireless Activity Tracker

Get **FIT**. Have fun. Meet Zip.

Turn your everyday life into a fun path to fitness.

Much more than a pedometer, Zip tracks your steps, distance, and calories burned -- then automatically syncs the data to your Fitbit account through your computer or select smart phones. Whether online or through the Fitbit App, you can set goals and stay motivated to keep on your path to fitness with graphs, badges, and friendly competitions. Check to see how you compare with friends and family and even provide a message to egg them on. Your stats wirelessly upload via computer or select Bluetooth 4.0 smartphones and tablets (like the iPhone 4S, iPhone 5), so you will know in real time when you are close to a goal and when you've reached one.

Built to keep you moving

Powered by Fitbit's leading-edge accelerometer technology, Zip™ accurately captures all-day activity that old-school pedometers can't handle.

ZIP AT A GLANCE

- Tracks steps, distance, calories burned
- Syncs automatically to your computer or select Bluetooth 4.0 smartphones and tablets
