

# inReach

## EXPLORER

### THE WORLD'S ONLY TRULY GLOBAL SATELLITE COMMUNICATOR WITH BUILT-IN NAVIGATION, WAYPOINTS AND ROUTING

Navigate, create waypoints, log your trip and find your way back. Send and receive messages. Trigger an interactive SOS. Plan, track and share your journey. Do it all on one rugged handheld device with 100% global coverage from Iridium.

Create or view a route, drop waypoints, see your tracks, and navigate with the on-screen map view.

View route details such as distance and bearing to destination. Equipped with a digital compass, barometric altimeter and accelerometer.

Plan your route online ahead of time, including waypoints, and share it with family and friends to follow along and watch your progress.

Send and receive 160-character text messages with GPS coordinates to cell numbers or email addresses worldwide and post updates to social media.

Adjustable tracking intervals from 10 minutes to 4 hours allow you to track your trip and share your location, including GPS coordinates, elevation and speed.

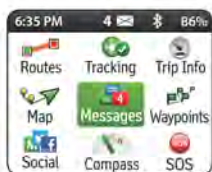

Trigger an SOS, receive a delivery confirmation, and communicate back and forth with our 24/7 search and rescue monitoring center.

An active satellite subscription is required to use inReach.

## inREACH EXPLORER: HOW IT WORKS

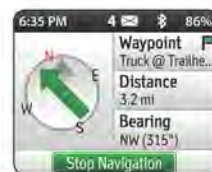

### EASY TO USE MENU INTERFACE

Color screen with virtual keyboard for standalone two-way messaging, creating waypoints, following a route, and viewing tracks.

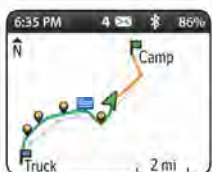

### ACCURATE, RELIABLE NAVIGATION

Built-in digital compass, along with barometric altimeter and accelerometer sensors, provide heading and bearing info, accurate elevation readings, speed, and moving average.

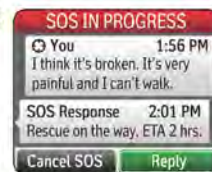

### COLOR-CODED MAP VIEW WITH WAYPOINTS

See an overview of your journey with planned routes, waypoints, tracks, and messages. Or, view navigation details overlaying topographics maps in Earthmate.

### INTERACTIVE SOS COMMUNICATIONS

Interact back and forth with the search and rescue monitoring center to communicate the nature of your distress and stay in touch throughout the rescue process.

\*Email, SOS and tracking functions work anywhere in the world; SMS availability may vary by country.
